Experience

Philly AI Lab

Technologist in Residence

Philadelphia, PA

May 2026 – Aug 2026

- Built a full-stack AI CRM app that captures contacts from voice, images, PDFs, and QR codes
- Developed AI search across 5,000+ contacts using keyword retrieval and LLM reranking
- Integrated Groq, Gemini, Airtable, PDL, and Clerk APIs for automated contact management

The Welcoming Center for New Pennsylvanians

IT Intern

Philadelphia, PA

May 2024 – Aug 2024

- Extracted hundreds of surveys and collector records from SurveyMonkey via Python and Zapier
- Structured Salesforce objects and tables to organize survey data through API integration
- Wrote SOQL queries and APEX trigger handlers to strengthen Salesforce data integration for ESOL

Philadelphia Chinatown Development Corporation

Database Intern

Philadelphia, PA

Jan 2024 – Apr 2024

- Supported the VITA team during tax season by diagnosing database issues and resolving inquiries
- Optimized Airtable automation workflows and refined trigger conditions for reliable data processing
- Redesigned database schema and UI to streamline client verification and tax preparation

Philadelphia Chinatown Development Corporation

Database Assistant Intern

Philadelphia, PA

Jun 2023 – Aug 2023

- Architected relational schemas and configured Airtable automation workflows for VITA databases
- Linked tables via primary/foreign keys and improved reporting efficiency through data matching
- Secured tax records for 600+ clients using conditional trigger filters and intake form design

Project

Massachusetts Health Care Access Analysis

Independent Project

Philadelphia, PA

Jul 2026 – Aug 2026

- Analyzed 457 Massachusetts ZCTAs in R to evaluate language barriers and healthcare access
- Combined CDC and ACS datasets through APIs while resolving Census data anomalies
- Found strong correlations between uninsurance and limited English proficiency across income groups

Skills

Programming: Python, Java, C, C#, SQL, HTML, CSS, JavaScript, R

Tools: Salesforce, Airtable, Zapier, Excel, Visual Studio Code, RStudio

Languages: Chinese, English
